Custom Tabs

Help for this Page

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

The screenshot shows the Salesforce Lightning Home page. At the top, there's a navigation bar with links for Home, Chatter, Accounts, Contacts, Cases, Reports, Dashboards, colleges, and departments. Below this is a search bar and a toolbar with various icons. The main content area features a 'Quarterly Performance' section with a line chart comparing Closed, Goal, and Closed + Open opportunities over three months. An 'Assistant' sidebar is open, displaying a message about an opportunity being overdue. A promotional banner encourages users to take the page anywhere using the mobile app. The bottom of the screen shows the Windows taskbar with the URL in the address bar and system status indicators.

department

SETUP > OBJECT MANAGER

department New Custom Field

Step 1. Choose the field type Step 1

Specify the type of information that the custom field will contain.

Data Type

None Selected Select one of the data types below.

Auto Number A system-generated sequence number that uses a display format you define. The number is automatically incremented for each new record.

Formula A read-only field that derives its value from a formula expression you define. The formula field is updated when any of the source fields change.

Roll-Up Summary ⓘ A read-only field that displays the sum, minimum, or maximum value of a field in a related list or the record count of all records listed in a related list.

Lookup Relationship Creates a relationship that links this object to another object. The relationship field allows users to click on a lookup icon to select a value from a popup list. The other object is the source of the values in the list.

Master-Detail Relationship Creates a special type of parent-child relationship between this object (the child, or "detail") and another object (the parent, or "master") where:

- The relationship field is required on all detail records.

New Custom Field

Step 1. Choose the field type Step 1

Specify the type of information that the custom field will contain.

Data Type

None Selected Select one of the data types below.

Auto Number A system-generated sequence number that uses a display format you define. The number is automatically incremented for each new record.

Formula A read-only field that derives its value from a formula expression you define. The formula field is updated when any of the source fields change.

Roll-Up Summary A read-only field that displays the sum, minimum, or maximum value of a field in a related list or the record count of all records listed in a related list.

Lookup Relationship Creates a relationship that links this object to another object. The relationship field allows users to click on a lookup icon to select a value from a popup list. The other object is the source of the values in the list.

Master-Detail Relationship Creates a special type of parent-child relationship between this object (the child, or "detail") and another object (the parent, or "master") where:

- The relationship field is required on all detail records.

Auto Number
A system-generated sequence number that uses a display format you define. The number is automatically incremented for each new record.

Formula
A read-only field that derives its value from a formula expression you define. The formula field is updated when any of the source fields change.

Roll-Up Summary
A read-only field that displays the sum, minimum, or maximum value of a field in a related list or the record count of all records listed in a related list.

Lookup Relationship
Creates a relationship that links this object to another object. The relationship field allows users to click on a lookup icon to select a value from a popup list. The other object is the source of the values in the list.

Master-Detail Relationship
Creates a special type of parent-child relationship between this object (the child, or "detail") and another object (the parent, or "master") where:

- The relationship field is required on all detail records.
- The ownership and sharing of a detail record are determined by the master record.
- When a user deletes the master record, all detail records are deleted.
- You can create rollup summary fields on the master record to summarize the detail records.

The relationship field allows users to click on a lookup icon to select a value from a popup list. The master object is the source of the values in the list.

External Lookup Relationship
Creates a relationship that links this object to an external object whose data is stored outside the Salesforce org.

Checkbox
Allows users to select a True (checked) or False (unchecked) value.

Currency
Allows users to enter a dollar or other currency amount and automatically formats the field as a currency amount. This can be useful if you export data to Excel or another spreadsheet.

Date
Allows users to enter a date or pick a date from a popup calendar.

Date/Time
Allows users to enter a date and time, or pick a date from a popup calendar. When users click a date in the pop-up, that date and the current time are entered into the Date/Time field.

This screenshot shows a Salesforce Lightning interface for creating a new department. The main title is 'New department'. In the 'Information' section, there are two required fields: 'department Name' (set to 'CSE') and 'college' (set to 'AVS ENGINEERING COLLEGE'). The 'Save' button at the bottom right is highlighted in blue. The background shows the standard Salesforce navigation bar with tabs like Service, Home, Chatter, and various reports.
